SKN-2008B 型 空气捻接器

Air Splicer

型号 / Model	SKN-2008B 型 Model SKN-2008B
适用范围 / Application	涤纶锦纶缝纫线、多股涤纶线、涤纶包芯纱和高支高捻毛纱 Polyester and polyamide sewing thread, multiple-ply polyester thread, polyester core-spun yarn, high count and high twist wool yarn
捻接范围 / Splicing Range	涤纶、锦纶缝纫线 Ne5~Ne80（单纱、股线和多股线）；涤纶包芯纱 Ne30~Ne100；毛纱 Nm30~Nm120 Polyester and polyamide sewing thread Ne5-Ne80 (single, ply and multiple ply yarn); polyester core-spun yarn Ne30-Ne100; wool yarn Nm30-Nm120
要求气压 / Air Pressure	>0.7 Mpa Required air pressure: >0.7 MPa

特点：针对缝纫线和高捻毛纱用户专门研发，解决空气捻接器在捻接缝纫线和高捻毛纱时捻接强力偏低的问题，大幅提高生产效率。

Features: Specially designed for sewing thread and high-twist yarn users, it solves the low splice strength problem when splicing sewing thread and high-twist wool yarn, and greatly improves productivity.
